

SYMPHONIC SAFARI

An illustration of two children, a boy and a girl, dressed in safari attire. The boy on the left wears a brown hat with a feather and a tan shirt with a green scarf. The girl on the right wears a tan hat with goggles and a tan shirt with a green scarf. They are standing in a savanna landscape with orange-brown hills, green bushes, and a blue sky with stylized clouds. Several musical notes in various colors (yellow, blue, purple, red) are floating in the air. The title 'SYMPHONIC SAFARI' is written in a playful, stylized font at the top, with a large yellow musical note integrated into the word 'SAFARI'.

Your Capital City Orchestra

Let's go on a Symphonic Safari Adventure!

Join our fearless guides Roger Rhythm and Violetta Vibrato as they visit with musicians and explore the wild world of musical instruments. Watch the videos to learn all about the instruments and which ones belong to the string, woodwind, brass, and percussion families. Then show what you know with activities like a crossword puzzle, word search, maze and more. You can even try your hand (or hoof) at being a conductor. Continue the musical fun with the listening guide and reading list.

You never know what you'll discover when you set out on a Symphonic Safari Adventure!

CONDUCTOR

The conductor helps shape the music by guiding the members of the orchestra. The conductor uses a thin stick called a baton to enhance their hand motions.

You can be the conductor! Find something to act as your baton. It could be a wooden spoon, chopstick, pencil or even a scarf. Listen carefully to the music while you try to keep a steady beat using the same movements as a conductor.

STRING FAMILY

Sound is created by plucking or pulling a bow across the instrument's strings.

VIOLIN

VIOLA

CELLO

BASS

STRING FAMILY CROSSWORD

Instructions

Use the clues to fill in the words above.

Down

1. when strings are plucked with a finger
3. sound of two or more notes played at the same time
4. how high or low in pitch an instrument can play
5. includes horsehair and a frog

Across

2. highest instrument in the strings family with the largest section in the orchestra
5. largest and lowest of all the instruments
6. second largest instrument in the string family
7. slightly larger and deeper pitched than the violin
8. series of musical notes that make up the main part of a piece

BASSOON

OBOE

FLUTE

CLARINET

SAXOPHONE

WOODWIND FAMILY

These instruments are played by blowing air through the mouthpiece and opening or closing the holes with your fingers to change the pitch.

A

B

C

D

E

WOODWIND FAMILY MATCHING

Instructions

Write the letter of each instrument above with its correct description below.

- _____ The **oboe** is an instrument with a double reed and 45 keys.
- _____ The **bassoon** plays the lowest notes in the woodwinds family and has finger holes, metal keys, and thumb keys.
- _____ A **flute** player blows both across and into this instrument.
- _____ **Clarinet** means small trumpet and has a single reed.
- _____ The **saxophone** is made out of brass but makes sounds using a reed.

BRASS FAMILY

All instruments in this family are made out of metal and a musician buzzes their lips into a mouthpiece to create the sound.

BRASS FAMILY FILL IN THE BLANK

Instructions

Read each sentence and fill in the blank with the correct answer from the word bank below.

A _____ is an instrument with a bell, paddles, and a mouthpiece.

A _____ relies on a slide to create pitch.

_____ change the pitch of a brass instrument.

When two musicians perform together it is called a _____.

A _____ is an instrument with 3 valves that can play 35 notes.

When five musicians perform together it is called a _____.

The largest instrument in the brass family is the _____.

The _____ is the position and use of the lips, tongue, and teeth in playing a brass instrument.

Word Bank

Duet	Embouchure	French horn	Quintet
Trombone	Trumpet	Tuba	Valves

TRUMPET

FRENCH HORN

TUBA

TROMBONE

PERCUSSION FAMILY

TIMPANI

These instruments make sound when struck, shaken, or scraped.

PERCUSSION FAMILY WORD SEARCH

Instructions

Locate the following words in the puzzle:

bass drum	bongos	castanets
chimes	clave	cow bell
cymbals	dynamics	fortissimo
glockenspiel	mallet	maracas
marimba	pianissimo	pitched
snare drum	sticks	tam tam
tambourine	timpani	triangle
unpitched	vibraphone	xylophone

SYNTHESIZER

ELECTRONIC MUSIC

These are pieces of technology that can make musical sounds.

How many words can you make using the letters of the word "SYNTHESIZER"?
Write them down on the lines below.

_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

FULL ORCHESTRA

The full orchestra includes instruments from all the instrument families.

ORCHESTRA MAZE

Instructions

Help the instrument families find their way to the conductor.

LISTENING ACTIVITIES

Draw the Music

Gather materials like crayons, pencils, or markers. Choose a musical piece and listen to it carefully before you begin to draw. How does it make you feel? What colors, shapes, and lines might show what you're hearing? Are the colors bold or light? Are the shapes round or pointy? Are the lines straight or swirly? Listen again and draw only the loud and strong sounds. Listen again and draw the soft parts. Listen once more and draw in the small details you hear.

Dance the Music

Choose a musical piece and listen to it carefully before you begin. Pay attention to the tempo, mood and rhythm. Brainstorm ways to show the most important parts of the piece through dance. What parts of your body should you use? Should you dance on tip toes or low to the ground? Should you glide or twirl? Try to use all kinds of movement to express what you're hearing and what you're feeling.
